**Section Title:**

Rate Schedules 202

Applicable to all areas

**202. Rate Schedules:**

**202.1 Residential Electric Service. 1-10**

**A. Application.**

Service under this rate is available to all accounts where service is primarily domestic use associated with the operation of a single residence where one or more individuals reside full time. Electrical service is provided at one point of service and measured with one meter.

**B. Type of Service.**

Single Phase service at the Cooperative standard secondary distribution voltages, where available. Where service of the type desired by Customer is not already available at the point of delivery, additional charges under the Cooperative line extension policy and special contract arrangements may be required prior to service being furnished. Service under this rate is limited to 25 kVA of dedicated transformer capacity.

**C. Monthly Billing.**

Each individual account will be billed on a monthly cycle the following charges:

**(1) Customer charge:** Fifteen dollars (\$ 15.00) per month.

and

**(2) Energy charge:** 0.02 per kWh

**D. Minimum charge.**

Each billing period the customer shall be obligated to pay the following charges as a minimum, whether or not any energy is actually used:

**(1) Customer charge:** Fifteen dollars (\$ 15.00) per month.

or

**(2)** Any amount authorized under the Cooperative line extension policy for amortization of line extension costs.

Rate Schedules 202

Applicable to all areas

**E. Billing Adjustments.**

This rate shall be subject to Power Cost Recovery Factor adjustment as determined in Section 203.1A and any applicable sales or other use taxes attributable to the use of electrical energy at this account location.

**F. Agreement.**

This rate schedule may be changed by order or consent of regulatory authorities having jurisdiction or by the Cooperative Board of Directors. Service hereunder is subject to provisions of Cooperative Tariff of Electric Service. A fixed term agreement may be required for new accounts requiring a line extension.

Rate Schedule 202.2

Applicable in all areas

**202.2      Residential Electric Service. 11-19**

**A.      Application.**

Service under this rate is available to all accounts where service is primarily domestic use associated with the operation of a single residence where one or more individuals reside full time. Electrical service is provided at one point of service and measured with one meter.

**B.      Type of Service.**

Single or three phase service at the Cooperative standard secondary distribution voltages, where available. Where service of the type desired by Customer is not already available at the point of delivery, additional charges under the Cooperative line extension policy and special contract arrangements may be required prior to service being furnished.

**C.      Monthly Billing.**

Each individual account will be billed on a monthly cycle the following charges:

(1)      **Customer Charge:**      Fifteen dollars (\$15.00) plus one dollar (\$1.00) per kVA for all transformer capacity in excess of 25 kVA and/or all transformer capacity needed to provide three phase service.

and

(2)      **Energy Charge:**      0.02 per kWh

**D.      Minimum charge.**

Each billing period the customer shall be obligated to pay the following charges as a minimum, whether or not any energy is actually used:

(1)      The Customer charge

or

(2)      Any amount authorized under the Cooperative line extension policy for amortization of line extension costs.

**Section Title:**

Rate Schedules 202

Applicable to all areas

**202.3 General Service. 20-29**

**A. Application.**

This schedule is applicable to all accounts taking single phase service from a single point of delivery and measured through one meter that does not qualify as a full-time residence. Accounts are for the following purpose(s):

Non-permanent residential and residential related accounts (water pump and outbuilding) stock water pumps, community and public buildings and assorted farm and ranch accounts. All accounts must require less than 100 kVA of dedicated transformer capacity.

**B. Type of Service.**

Single phase service at the Cooperative standard secondary distribution voltages, where available. Where service of the type desired by customer is not already available at the point of delivery, additional charges under the Cooperative line extension policy and special contract arrangements may be required prior to service being furnished.

**C. Monthly Billing.**

Each individual account will be billed on a monthly cycle the following charges:

**Customer charge:** Fifteen dollars (\$15.00) per month

When customer requires 25 kVA or less of transformer capacity. For all capacity in excess of 25 kVA the customer charge will be increased by one dollar (\$1.00) per kVA

and

**(2) Energy charge:**

\$0.03 per kWh

**D. Minimum Charge.**

Each billing period the customer shall be obligated to pay the greater of the following charges as a minimum, whether or not any energy is actually used:

**Jackson Electric Cooperative, Inc**

Tariff

for

Electrical Service

- (1) The Customer charge  
or
- (2) Any amount authorized under the Cooperative line extension policy for amortization of line extension costs

**E. Billing Adjustments.**

This rate shall be subject to Power Cost Recovery Factor adjustment as determined in Section 203.1A and any applicable sales or other use taxes attributable to the use of electrical energy at this account location.

**F. Agreement.**

Service under the rate schedule requires the execution of a service agreement with a term of at least one year. A billing for the agreement minimum remaining on the term will be rendered upon requested disconnect unless account is reconnected by a new entity executing at least a one year service agreement. The rate schedule may be changed by order or consent of regulatory authorities having jurisdiction and/or the Cooperative Board of Directors. Service hereunder is subject to the Cooperative tariff for electrical service. Extended service agreement and/or a contribution in aid of construction may be required for new line extension.

**202.5 Small Commercial - Three Phase. 30-39**

**A. Application.**

This rate schedule is applicable to all accounts requiring three phase electrical service and using electrical power and energy in a commercial endeavor, plus other public buildings, churches, and community buildings requiring three phase of electrical power. Accounts shall be limited to less than 112.5 KVA of dedicated transformer capacity.

**B. Type of Service.**

Three phase service at the Cooperative standard secondary distribution voltage, where available. Where service of the type desired by Customer is not already available at the point of delivery, additional charges under the Cooperative's line extension policy and special contract arrangements may be required prior to service being furnished.

**C. Monthly Billing.**

Each individual account will be billed the following charges on a monthly cycle:

**(1) Customer charge**

One dollar (\$1.00) per KVA for all dedicated transformer capacity in excess of 50 KVA, but not less than thirty dollars (\$30.00) per month.

**(2) Energy charge**

0-7500 KWh	\$0.02557 per KWh
7501-15000	0.01906 per KWh
Over 15000	0.01706 per KWh

**A. Monthly Minimum Charge.**

The Customer charge or any amount authorized under the Cooperative line extension policy for amortization of line extension costs.

**E. Billing Adjustments.**

This rate shall be subject to Power Cost Recovery Factor adjustment as determined in Section 203.1A and any applicable sales or other use taxes attributable to the use of electrical energy at this account location.

Tariff

for

Electrical Service

**F. Agreement.**

Service under the rate schedule requires the execution of a service agreement with a term of at least one year. A billing for the agreement minimum remaining on the term will be rendered upon requested disconnect unless account is reconnected by a new entity executing at least a one-year service agreement. The rate schedule may be changed by order or consent of regulatory authorities having jurisdiction and/or the Cooperative Board of Directors. Service hereunder is subject to the Cooperative Tariff for Electrical Service. An extended service agreement may be required for new line extension. Exception to the required one-year service agreement is provided when member pays a contribution in aid of construction for temporary service and does not adversely affect the Cooperative peak demand billing.

**Section Title:**

**202.4 Small Commercial-Single Phase Service. 40-49**

**A. A. Application.**

This rate schedule is applicable to all accounts requiring single phase power and using electrical power and energy in a commercial endeavor (except for livestock watering). Accounts shall be limited to less than 101 KVA of dedicated transformer capacity.

**B. Type of Service.**

Single Phase service at the Cooperative's standard secondary distribution voltage, where available. Where service of the type desired by Customer is not already available at the point of delivery, additional charges under the Cooperative line extension policy and special contract arrangements may be required prior to service being furnished.

**C. Monthly Billing.**

Each individual account will be billed on a monthly cycle the following charges:

**(1) Customer charge**

One dollar (\$1.00) per KVA but not less than fifteen dollars (\$15.00) per month for first 50 KVA. Fifty cents (\$0.50) per KVA for all KVA required in excess of 50 KVA.

**(2) Energy charge**

0-5,000 KWh	\$0.02557
5,001 - 10,000 KWh	0.02157
10,001 + KWh	0.01706

**D. Monthly Minimum Charge.**

Each month the account will be billed a minimum amount regardless of the amount of kWhs used equal to the following:

**(1) Customer charge. (See C.1)**

**Jackson Electric Cooperative, Inc**

Tariff

for

Electrical Service

**(2) Contract Amount.**

An amount agreed to by both parties to amortized portions of a line extension and/or account for unique operating characteristics.

**E. Billing Adjustments.**

This rate shall be subject to Power Cost Recovery Factor adjustment as determined in Section 203.1A and any applicable sales or other use taxes attributable to the use of electrical energy at this account location.

**F. Agreement.**

Service under the rate schedule requires the execution of a service agreement with a term of at least one year. A billing for the agreement minimum remaining on the term will be rendered upon requested disconnect unless account is reconnected by a new entity executing at least a one-year service agreement. The rate schedule may be changed by order or consent of regulatory authorities having jurisdiction and/or the Cooperative Board of Directors. Service hereunder is subject to the Cooperative Tariff for Electrical service. An extended service agreement may be required for new line extension. Exception to this involves accounts when customer/member pays a contribution in aid of construction for temporary service.
